APPROVED DEALERS IN:

70+ Countries

WORDS FROM OUR CEO,
PER LIDSTRÖM

One does not build a company that lasts over 70 years without an unwavering commitment to customer satisfaction. Cibes fully embraces the Scandinavian ethos of reliability, which is why we are uncompromising when it comes to the quality of our products, the elegance of our designs and our commitment to safety. From the start, our best marketing has always been our existing customers, and the 50,000 lifts we have installed around the world continue to be a driver of our success. At Cibes, we know that our happy customers are the key to our longevity, and we look forward to having you join the Cibes family!

Per Lidström

CEO, CIBES LIFT GROUP

EMPLOYEES

Across the world

70,000+

LIFTS INSTALLED

In 70+ countries

SPACE - SAVING TECHNOLOGY

NO MACHINE ROOM

Minimize civil works and able to open up on last floor without damage to roof area

ALL GLASS SHAFT

Able to do 360 glass shaft for a panoramic ride

SCREW DRIVE SYSTEM

Your lift is always attached to our screw and cannot "fall down".
Silent and energy efficient

SUPERIOR QUALITY

From our glass (laminated and tempered) to our shaft (aviation grade aluminum with premium custom powdercoat), every detail of our lift is carefully studied to offer the best quality.

TOUCH AND LIGHT

Our Cibes lifts come with full touchscreen to offer a modern design that can match any interior

PLATFORM DESIGN

Our lifts are platform lifts, which saves space, creates a feeling of openness and avoids locking you inside a cabin.

ANTI-STUCK SYSTEM

Battery back up, reset tag on door, phone and emergency openings – we have you covered even if the worst were to happen!

NO PIT

Installing our lift is simple – it requires no pit and can be installed straight on the floor with only a 50 mm ramp

SAFETY IS IN OUR DNA

SWEDISH FOCUS ON QUALITY

SCREW DRIVE TECHNOLOGY:

LIFTS THAT CANNOT “FALL DOWN”

Screw-drive technology is unique in the market in that the lifting cabin or platform is always attached to a toughened steel screw. The movement behind the “lifting” is not a pulling motion through cable or belt, but a rotation of a nut around the screw.

This revolutionary system ensures that Cibes Lift platforms and cabin cannot be “cut off” or enter freefall because of cable and brake failures. Instead, they are always connected to the steel screw that runs the length of the whole device.

Thanks to this technology, our screw drives are able to meet not only the extremely high European Safety Standards but also those of our other markets around the world, including but not limited to the USA and Australia.

WHY CUSTOMERS CHOOSE CIBES

MEET OUR INSTALLATION TEAM

At Cibes, we **never outsource installation, maintenance and repairs**. All our technicians are Cibes-certified and trained directly by the head Cibes Tech Team.

This ensures that we maintain our high quality standards for every single lift we install, and provide our customers with top-notch customer service.

We also regularly arrange technical trainings across the region, sharing best practices from all our markets in Asia (100+ showrooms in 7 different countries).

OUR QUALITY PROMISE

- ▶ A Swedish quality lift deserves a **Swedish quality installation** – always!
- ▶ **24/7 service** – when you need us, we will be there!
- ▶ 1 year free warranty
- ▶ 1 year free maintenance
- ▶ 10 years limited warranty on the screw & nut
- ▶ **An investment** that will last 20-25 years when properly maintained by Cibes Certified Technicians

Technicians that are trained to not only repair and maintain your lift, but also respect your home and your privacy

"30% of Cibes' business is referrals, so complete customer satisfaction is the most important thing we focus on."
